

tlz::kinect_internal
_parameters

```
graph BT; A[tlz::kinect_remapping] -.->|internal_parameters_| B[tlz::kinect_internal_parameters]
```

The diagram illustrates a dependency between two C++ namespaces. At the bottom is a grey box labeled 'tlz::kinect_remapping'. A dashed purple arrow points upwards from this box to a white box at the top labeled 'tlz::kinect_internal_parameters'. The arrow is labeled 'internal_parameters_' to its right.
